

## **Skimmed Milk**

- 1. Name of the raw materials: pasteurized cow's milk
- 2. Requirements for the organoleptic characteristics, chemical and microbiological

| No. | Features                                    | The quality parameters                              |
|-----|---|---|
| 1   | Colour and appearance                       | Solid white colour liquid                           |
| 2   | Smell and taste                             | Typical for pasteurized milk, without foreign odors |
| 3   | Fat content (%)                             | ≤ 0,05 %  |
| 4   | Density                                     | ≥ 1,0310  |
| 5   | Pasteurization                              | Phosphatase absent                                  |
| 6   | Acidity <sup>0</sup> SH                     | 6,0 - 7,5   |
| 7   | Acidity PH                                  | 6,6 - 6,8   |
| 8   | Temperature °C                              | ≤ 6 °C  |
| 9   | Antibiotics and other inhibitory substances | unacceptable  |

Other requirements of the signed agreement.

## 3. Medical requirements.

Compliance with Regulation (EC) No 853/2004 of the European Parliament and of the Council of 29 April 2004. laying down specific hygiene rules for food of animal origin.
